

# Twister

"Twister", the next generation in high performance ceiling diffusers. Blending form and function in perfect harmony. Contemporary architectural radial vane design shows attention to the art of comfort ventilation. High induction 360° swirl air pattern is engineered to optimize air distribution effectiveness.

- Superior coanda effect air pattern, eliminates dumping and is ideal for VAV applications
- 2' x 2' (600 x 600) ceiling module size with frame / border styles to suit all ceiling systems
- Available in five neck sizes, 6" – 14" (60 – 750 cfm)
